Notes from last meeting, 3/20/07: Bryan Brosamle, MGE Manager Corporate Communications. Subject - 2015 Plan for energy: efficiency, renewable and clean coal plants in Dane County. Key to this is Customer Conservation - focus groups and community meetings conducted. Blout generation station many changes being addressed but there will be significant workforce reductions. Also going to be buying energy from Oak Creek, plans to increase wind power 5 x 10 times and obtain power from BioMass. New incentives planned for customers who will go GREEN and invest in solar panels. All Rotarians are encouraged to commit to energy conservation and look into upcoming workshops through MG&E.
